

Fresh water is vital for your health -
your body deserves it, doesn't it ?

Specification

Goods Dimension (W×D.L×H)	315×315×530m/m
CTN Dimension (W×L×H)	330×330×380m/m
Weight (Standard)	4.6 kg
Filtration Capacity (Micro Filter)	Approx. 5~10ℓ /h
Filtration Capacity (Ceramic Filter)	Approx. 1~1.5ℓ /h
Upper Water Tank	6ℓ
Lower Water Tank	12ℓ

Step 1

Filtration

Micro-filter or Ceramic filter removes impurities such as sediments, rusts, dregs and other particulate matters from water.

Step 2

Purification

Purifying filter removes chlorine, THMs, organic chemicals, pigments, unpleasant odor, color, bad taste and harmful substances in water.

Purifying filter

Step 3

Anti-Bacteria Unit

"Cormac" has excellent functions to prevent contamination of purified water by bacteria such as *E. coli*, and maintain purified water fresh. It has additional functions to remove heavy metals from water, enrich healthy mineral ingredients in water, adjust pH of water to mild alkaline and improve water taste.

Step 4

Magnetization

Powerful Nd magnetic device reduces the size of water cluster. Small-clustered water is known to be very effective for smooth metabolism of human body and prevention of many diseases.

Coolmart
Magnetized Mineral Water Purifier

Feel the Nature with "Coolmart" Magnetized Mineral Water Purifier !

"Coolmart", Magnetized Mineral Water Purifier is a wonderful drinking water solution for enhancing your healthful life through highly effective multilayered filter system : filtration, purification, sterilization and powerful magnetization. Now you can enjoy fresh and germ-free mineral water at any place in economical and convenient way.

What is REDOX filter ?

Now that customers want more than just clean water, we have developed the filter named REDOX. When you install REDOX filter instead of normal purifying filter, you can get additional effects, that is, mildly alkaline water with stronger anti-oxidant power than ordinary water. The strength of anti-oxidant power can be measured with ORP* tester. The lower is the ORP of water, the more it has anti-oxidant power, which removes the free radicals such as active oxygens known as the main cause of aging and various diseases like diabetes, hypertension, arteriosclerosis, and cancers, etc.

	pH	ORP
Normal tap water	7.0~8.0	+400~+600
Purified water /bottled water	7.0~8.0	+200~+250
Redox Filter Water	8.0~9.0	-50~+50

*ORP stands for Oxidation-Reduction Potential
